i.

ii.

iii.

The screenshot shows a dark-themed Git commit history interface. At the top, there are tabs for 'File', 'Edit', 'View', 'Repository', 'Branch', and 'Help'. Below these are dropdown menus for 'Current repository' set to 'Laboratorios' and 'Current branch' set to 'main'. A 'Fetch origin' button indicates it was 'Last fetched just now'.

The main area has two tabs: 'Changes' (1) and 'History'. The 'History' tab is selected, showing a list of commits:

- cambio** (davidsx-hrkbt, 3 minutes ago)
- Laboratorio 3.** (davidsx-hrkbt, 8 minutes ago)
- Initial commit** (davidsx-hrkbt, 20 minutes ago)

Below the commit list, a commit titled 'cambio' is expanded, showing its details:

cambio (davidsx-hrkbt, 3 minutes ago) +2 -1

1 changed file: README.md
